

## RESISTANCE

This reference contains the *X-Wing Second Edition* Quick Build options for the Rebel Alliance faction. These predefined selections of pilots and upgrades help you quickly assemble squadrons and get flying. Each option consists of a ship card, a number of upgrade cards, and a threat level. To play a match using the Quick Build options, you just need to agree to a particular threat level with your opponent, choose a combination of options that add up to that threat level, and launch your fighters!
